The President of the United States of America
Mr. William Jefferson Clinton

United States of America

Dear President Clinton,

REVELATIONS

Through the Grace of God, The Spirit of God has revealed to me some momentous future happenings that are pertinent to you and the United States of America.

My letter of August 9th, 1996 alluded to the most significant of these revelations of which I have both the singular privilege and burden.

First, it was vividly revealed to me that: "you and Vice President Gore won the November 1996 presidential elections by a wide margin as some Republicans broke ranks with their party and voted for you; and that everyone was surprised." However, rather than this revelation, it is the under-mentioned revelation that compels me to communicate with you.

It was revealed to me and "I vividly saw numerous missiles falling from the sky on a city in the United States and instantaneously, I saw Saddam Hussein dressed in military uniform sitting in Baghdad as The Spirit revealed to me that the missiles were being fired from Iraq at Saddam's orders. No serious destruction was being done by the missiles. And instantaneously, I came up to you in the city and told you that the aggression was from Saddam and warned you to act immediately to stop him because the next round of missiles would be very devastating and that it would then be very difficult to stop him." The date of the attack was not revealed to me.

I have been perturbed especially since the crash of TWA Flight 800 because it was revealed to me a few weeks before it happened: "I saw an airplane suddenly explode and burst into flames in the sky and fell downwards into the sea; and everyone lamenting that no passenger or crew member survived." The airplane, flight number and the date of the crash were not revealed to me. As a continuation of the same vision, "I saw a pilot dressed in military uniform eject and land safely on a

beach after a collision involving two planes in the sky. There was a burst of flames from the impact of the planes. I did not see the second pilot clearly but it appeared that he also survived the accident. A crowd that was bathing by the beach witnessed the accident and shouted joyously, praising God for the miraculous survival of the pilot(s)."

There have been a few other revelations that are not so pertinent to mention here.

I fervently pray that Saddam's aggression does not occur but I am afraid that all things revealed to me are ultimately fulfilled. - Isaiah 46: 9 - 10.

Nevertheless, do not panic, for God is in control and His Grace is upon us all.

God bless you.
